SAFETY INSTRUCTIONS

Congratulations to the purchase of this Vonyx product. Please read this manual thoroughly prior to using the product in order to benefit fully from all features.

- This wall bracket should be installed by a trained and experienced installer designated by the retailer. Having the product installed by a non-specialized installer is very dangerous and can cause damage or injury.
- Use a trained and experienced installer to move or replace the wall bracket, if needed. Installation requires special techniques. Moving or installing the product on your own can cause serious safety issues.
- Do not install the product where the weight cannot be supported. If the structural integrity of the location where the bracket is installed is not strong enough, it can fall off and cause injuries.
- If the product is damaged to such an extent that structural integrity is questioned, do NOT use it. Contact your dealer.
- All repairs should be carried out by a qualified technician only.
- If the product has not been used for a longer period of time, the product needs to be checked on structural integrity and function.
- To prevent accidents in companies, you must follow the applicable guide lines and follow the instructions.
- If the product has fallen, always have it checked by a qualified technician before utilizing the product.
- This product contains small items that could be a choking hazard if swallowed. Keep the product out of the reach of children. Do not leave the product unattended.
- Always ensure that the correct screws and anchors are used when installing this product.
- Make sure to align the bracket completely vertical relative to the wall you have chosen to install the bracket.
- Improper installation may cause property damage or personal injury.
- Preferably do not use cleaning sprays as residues of these sprays cause deposits of dust and grease, which can cause difficulties operating the product. In case of malfunction, always seek advice from a specialist.
- Do not use chemicals to clean the unit. They damage the varnish. Only clean the product with a dry cloth.
- Do not use excessive force. Do not hang from the product or apply severe impact to the product. The product can fall off and cause injury.
- Only use original spares for repairs, otherwise the product cannot guarantee its load-bearing capacity and other stated specifications.
- Keep the original packing material so that you can transport the product in safe conditions.

The product has been certified CE. It is prohibited to make any changes to the product. They would invalidate the CE certificate and their guarantee!

INSTALLATION

1. Drill holes, big enough to accommodate the correct bolt anchors.
2. Clean the drilled holes.
3. Insert anchors. If necessary use a hammer with care.
4. Position the bracket on the wall, aligning the product holes accurately with the drilled holes.
5. Put bolts in and cross-tighten securely.

TECHNICAL SPECIFICATION

Material:	Metal
Dimension (folded):	70 x 260 x 415 mm
